

CNU XVI

AUSTIN TEXAS
NEW URBANISM AND THE
BOOMING METROPOLIS 
APRIL 3-6, 2008

CNU is grateful for the leadership of the following supporters and partners of CNU XVI.

PARTNERS

- AIA Austin
- America Walks
- American Planning Association-Texas Chapter
- American Society of Landscape Architects
- Association of Pedestrian and Bicycle Professionals
- Austin Board of REALTORS®
- Austin Chamber of Commerce
- Capital Area Council of Governments
- Capital Metropolitan Transportation Authority
- Center for Neighborhood Technology
- Central Texas Section of the American Planning Association
- Council for European Urbanism
- Downtown Austin Alliance
- Envision Central Texas
- International City/County Management Association (ICMA)
- Local Government Commission
- National Housing Conference
- Natural Resources Defense Council
- Rail-Volution
- Reconnecting America
- Sierra Club
- Smart Growth America
- Surface Transportation Policy Partnership
- The Real Estate Council of Austin, Inc.

LOCAL HOST COMMITTEE

CNU XVI Executive Committee Chairs

- John Langmore
- Austan Librach

CNU XVI Host Committee Members

- Mark Aflatooni
- Molly Alexander
- Sam Archer
- Tracy Atkins
- Marissa Ballas
- Carol Barrett

CNU STAFF

- John O. Norquist, *President and CEO*
- Nora June Beck, *Executive Assistant and Planning Associate*
- Abigail Bouzan-Kaloustian, *Administration and Finance Director*
- Payton Chung, *Research Coordinator*
- Lee Crandell, *Membership and Chapter Coordinator*
- Stephen Filmanowicz, *Communications Director*
- Juantiki Jones, *Membership Assistant*
- Sandrine Milanello, *Events Director*
- Brenda Jones Smith, *Office Manager*
- Heather Smith, *Planning Director*

WEDNESDAY

Wednesday **April 2**

CONGRESS REGISTRATION

3:00 pm – 7:00 pm | *Palazzo Area, Level 1*

URBAN LABORATORIES

8:30 am – 5:00 pm

Partly sponsored by the Capital Metropolitan Transportation Authority.

Both Labs take place at Salvage Vanguard Theater, 2803 Manor Rd., Austin, Texas.

Require registration and a separate fee.

Urban Lab 1: Coding to Accommodate New Development in an Evolving Neighborhood

Urban Lab 2: The Right Mix

CNU NEXTGEN: A ONE-DAY CONGRESS

9:30 am – 5:00 pm | *Meeting Room 4*

CNU NextGen is an excellent way for newcomers of all experiences and backgrounds to become familiar with New Urbanism as well as meet others with similar interests looking to make a difference. Free and open to all.

PARTNER EVENTS

Require registration and a separate fee.

NCI Charrette Certificate Module One: Introduction to NCI Dynamic Planning

9:00 am – 12:30 pm | *Meeting Room 3*

By the National Charrette Institute (NCI).

The Techniques and Metrics of Sustainable Urbanism

1:00 pm – 5:30 pm | *Meeting Room 3*

By Doug Farr.

Wednesday Evening

PLENARY

5:30 pm – 7:00 pm | *Ballroom ABC*

Austin's Past and Future: Green and Growing

This informal plenary session with Austin Mayor Will Wynn and architect Sinclair Black showcases the city as a place of booming urbanism and cutting-edge green technology. Kicking off a Congress focused on sustainability, Laura Huffman will introduce Mayor Wynn who will discuss global warming and the city's efforts to curb the trend.

Stefanos Polyzoides will present Sinclair Black with the Athena Medal for Lifetime Achievement. Sinclair Black has been an active educator, urban designer, architect, and environmentalist throughout his professional career, striving to preserve the natural and man-made beauty of central Texas through his extensive efforts. To open this session, CNU will honor O'Neil Ford and Charles Moore for their outstanding contributions to architecture and urbanism.

KEYNOTE: Hon. Mayor Will Wynn, City of Austin
Sinclair Black, FAIA, Black & Vernooy; Stefanos Polyzoides, Moule & Polyzoides Architects and Urbanists; Boone Powell, FAIA, President, Ford Powell & Carson Architects and Planners, Inc.; Arthur W. Andersson, AIA, President, Andersson-Wise Architects; Laura Huffman, Assistant City Manager, City of Austin

THE UNFORESEEN

Movie. \$8.25

See originalalamo.com for showtimes | *Alamo Drafthouse Cinema, 1120 S. Lamar Blvd., Austin, Texas*

This film chronicles Austin's struggle to balance growth and preservation.

Thursday April 3

CONGRESS REGISTRATION

7:00 am – 7:00 pm | *Palazzo Area, Level 1*

CONTINENTAL BREAKFAST

7:00 am – 9:00 am | *Exhibit Hall 1*

EXHIBITS

7:00 am – 6:00 pm | *Exhibit Hall 1*

TOURS

All tours depart from and return to Austin Convention Center, Trinity Street Side. Require registration and a separate fee.

8:00 am – 3:30 pm

1: San Antonio: Along the Historic Riverwalk

9:30 am – 12:00 pm

3: Mueller Airport Redevelopment

14: The Domain

1:00 pm – 3:00 pm

5: Funky SoCo

NEW URBANISM 101

9:00 am – 5:00 pm | *Meeting Room 6*

An in-depth primer on the history, principles, and concepts of New Urbanism. This day-long course provides an illustrated introduction to New Urbanism and a foundation in key concepts such as the Transect, transportation planning, and theory vs. practice. This year’s session will feature a Q&A period with notable new urbanists.

Andrés Duany, Principal, Duany Plater-Zyberk & Company; **Doug Farr**, President and Founding Principal, Farr Associates Architecture & Urban Design; **Jacky Grimshaw**, Vice President for Policy, Transportation and Community Development, Center for Neighborhood Technology; **Mike Krusee**, Texas House of Representatives; **Jeff B. Speck**, AICP, LEED-AP; **Peter Swift**, Owner, Swift and Associates; **Emily Talen**, PhD, AICP, Professor, School of Geographical Sciences and School of Planning, Arizona State University

LEED-ND WORKING SESSION

9:00 am – 12:30 pm | *Meeting Room 4*

CNU has partnered with the Natural Resources Defense Council and the U.S. Green Building Council to certify neighborhood development projects through the LEED for Neighborhood Development rating system. The new certification program entered its pilot phase in early 2007, and 238 pilot projects from 39 states and 6 countries are now in various stages of the certification process. Several leading new urbanists who helped create the rating system will present case studies of pilot projects and discuss lessons learned so far.

Victor Dover, Principal, Dover Kohl & Partners; **Doug Farr**, President and Founding Principal, Farr Associates Architecture & Urban Design; **Jennifer Henry**, LEED-ND Program Manager, U.S. Green Building Council; **Susan Mudd**, Environmental Attorney, Board Member, Congress for the New Urbanism; **Tom Richman**, Principal, Office of Tom Richman

NEW URBANISM 202s

Require registration and a separate fee.

★ MORNING 9:00 AM – 12:00 PM

A: Creating Form–Based Comprehensive Plans

Meeting Room 5 A

Explore the application of the Charter to city-level comprehensive plans, as panelists discuss how comprehensive plans can de-emphasize land use and instead focus on typology, character, and condition of place. Topics include state plan requirements, economic approaches, mapping of the form and character of the community, and how to set the stage for coding and implementation.

Richard Bernhardt, Executive Director, Metropolitan Planning Department Nashville–Davidson County; **Dena Belzer**, Principal, Strategic Economics; **Ellen Greenberg**, AICP, Principal, Greenberg Consulting; **Alan Loomis**, Principal Urban Designer, City of Glendale; **Gianni Longo**, President, ACP Visioning & Planning

B: Enabling Great Streets

Meeting Room 1

Streets play a critical role in the character of any community, defining the quality of the public realm, sizing blocks, providing access, and dictating the arrangement and interaction of land uses. The design and function of a community’s streets can limit or bolster its potential. Learn the necessary process and elements that allow communities to envision, design, and implement great streets.

Brian Bochner, Senior Research Engineer, Texas Transportation Institute; **Eric Dumbaugh**, Assistant Professor, Dept. of Landscape Architecture and Urban Planning, Texas A&M University; **Michael Freedman**, Principal, Freedman Tung & Bottomley; **Ian Lockwood**, Senior Transportation Engineer, Glatting Jackson Kercher Anglin, Inc.; **Troy P. Russ**, Principal, Glatting Jackson Kercher Anglin, Inc.

C: Details of New Urbanism Part 1:

From Curb to Cupola

Meeting Room 7

Learn directly from planners, architects, developers, and managers about what went right and wrong in the planning, development, and ongoing life of new urbanist neighborhoods.

Co-sponsored by the National Town Builders Association

Louis Marquet, Executive Vice President, LeylandAlliance LLC; **Steve Maun**, President, LeylandAlliance LLC; **Donald Powers**, AIA, Principal, Donald Powers Architects Inc.; **Robert Turner**, Principal, Habersham Land Company Inc.; **Michael D. Watkins**, AIA, AICP, LEED; **John Anderson**, Vice President, Planning and Design, New Urban Builders, Inc.

D: Streetcars as a New Urbanist Tool

Meeting Room 5 C

Once ubiquitous, streetcars are now uniquely suited to serve the high-density development underway in downtowns across the U.S. Hear about new streetcar systems and why they have become magnets for new urbanist development. Learn how to build political and community support for streetcars and how to leverage streetcars for economic development. Based

Thursday continued

on the Charter Award-winning book, *Street Smart: Streetcars and Cities in the 21st Century*.

GB Arrington, Principal Practice Leader, PB PlaceMaking; **John Carroll**, Principal, Carroll Investments; **Michael M. English**, Vice President, Corporate leader, Regional & Community Planning, Wilson Miller; **Rick Gustafson**, Vice President, Shiels Obletz Johnsen; CEO, Portland Streetcar Inc.; **Charlie Hales**, Planner and Project Manager, HDR Inc.; **Gloria Ohland**, Vice President for Communications, Reconnecting America; **Shelley Poticha**, Executive Director, Center for Transit-Oriented Development, Reconnecting America

★ AFTERNOON 2:00 PM – 5:00 PM

E: Green Solutions Along the Transect

Meeting Room 5 A

A greening technique that is appropriate for T1 may not work for T5. Learn how the Transect can be used as an organizing tool to select appropriate and alternative solutions to environmental needs. Hear about projects from across the Transect and learn how your “plug-ins” contribute to this growing new urbanist knowledge base.

Stephanie Bothwell, ASLA, Principal, Urban & Landscape Design; **Andrés Duany**, Principal, Duany Plater-Zyberk & Company

F: Details of New Urbanism Part 2: Modernism vs. Traditional Architecture

Meeting Room 5 C

Learn from architects, planners, developers, and marketing consultants about how and why architectural choices are made, and how these decisions can create opportunities, provoke tension, and inform every aspect of the life of a new urbanist project.

Co-sponsored by the National Town Builders Association

Beth Dunlop, Editor-in-Chief, *HOME Miami*; **Alexander Gorlin**, Principal, Alexander Gorlin Architects; **Steve Maun**, President, LeylandAlliance LLC; **Steve A. Mouzon**, AIA, LEED, Principal, The New Urban Guild; **Lucilo Peña**, President-Development, Billingsley Company; **Todd Zimmerman**, Principal, Zimmerman/Volk Associates Inc.

G: Form-Based Codes: Alternative Typologies and Techniques

Meeting Room 7

Form-based coding has grown from a cottage industry practiced by a few firms to an increasingly mainstream practice. As these codes spread, so do the number of coding formats, techniques, and approaches. This session will explore a range of coding approaches, presenting case studies of their application to various urban and rural conditions, and matching approach to context.

Juan Gomez-Novy, Associate, Moule & Polyzoides Architects and Urbanists; **Marina Khoury**, Director of Town Planning, Duany Plater-Zyberk & Company; **Daniel Parolek**, AIA, Principal, Opticos Design, Inc.; **Jose Antonio Perez**, Senior Associate, Moule & Polyzoides Architects and Urbanists; **Bill Spikowski**, Principal, Spikowski Planning Associates
MODERATOR: David Sargent, AIA, Senior Associate, Moule & Polyzoides Architects and Urbanists

H: The Mythical Parking Shortage: Why Provide Excess Parking?

Meeting Room 5 B

Parking requirements are a principal difference between the New Urbanism and the old, and a stronger determinant of urban form than density or FAR. How can we accommodate the automobile while allowing for good urban form? From innovative on-street parking management solutions to the removal of off-street requirements, this session explores tested approaches that provide developers and city officials with new confidence in improving pedestrian-oriented environments.

Shannon Sanders McDonald, Architect, Author of *The Parking Garage, Design and Evolution of a Modern Urban Form*; **Cole McDowell**, President and Chief Operating Officer, Five Star Real Estate, Inc.; **Brian O’Looney**, Senior Associate, Torti Gallas and Partners; **Patrick Siegman**, Principal, Nelson\Nygaard Consulting Associates; **Mary Smith**, Director of Parking Consulting, Walker Parking Consultants

I: Retail Recipes

Meeting Room 1

Developing successful retail centers is one of the more difficult aspects of New Urbanism, where many planned centers fail to attract key retailers or to meet market performance standards. Examine successful retail design and merchandising principles and consider how they can be applied to new urbanist communities. Participants will review demographics, site planning, tenant mix, anchor placement, vehicular circulation patterns, and modern retail principles to increase sales.

Bob Gibbs, President, Gibbs Planning Group; **Jane Grabowski-Miller**, Design Director, Middleton Hills, Erdman Holdings, Inc.; **Terry Shook**, Principal, Shook Kelley Architects

WHY CONSERVATIVES SHOULD SUPPORT NEW URBANISM

12:30 pm – 1:30 pm | *Meeting Room 8*

Learn how New Urbanism’s resurrection of city values from the past is relevant to the current Conservative movement. Free and open to all.

Bruce Donnelly, Urban Planner, Consultant; **Andrés Duany**, Principal, Duany Plater-Zyberk & Company; **Peter Katz**, President, Form-Based Codes Institute; **Bill Lind**, Free Congress Foundation

MODERATOR: Nathan Norris, Director of Implementation Advisory, PlaceMakers, LLC

THE ORIGINAL GREEN

1:00 pm – 2:00 pm | *Meeting Room 4*

Construction had no choice but to be green before the “thermostat age.” It was sustainable because people first created places that were feedable, serviceable, accessible, and defensible. Within sustainable places, it was possible to build sustainable buildings that were first lovable, then durable, flexible, and frugal. Today’s popular green building discussion focuses only on limited aspects of frugality. The Original Green is a much broader approach that delivers true sustainability. Free and open to all.

Steve A. Mouzon, AIA LEED, Principal, The New Urban Guild

THURSDAY

Thursday *continued***NEW INITIATIVES FORUM**2:00 pm – 5:00 pm | *Meeting Room 3*

Would you like to hash out a thorny new urbanist issue with colleagues? Join CNU initiative leaders in collaborative discussions about current and potential CNU projects. This strategy session allows participants to self-organize productive workshops around topics they want to work on between Congresses.

ENVISION CENTRAL TEXAS OPEN SESSION3:00 pm – 5:00 pm | *Ballroom ABC*

Internationally recognized regional and urban planner Peter Calthorpe, consultant for the extensive Envision Central Texas visioning project, will examine the rationale for regional visioning, ECT's progress so far and key next steps to make the region's vision a reality. Learn how visioning can translate into actions that foster sustainable growth and development. Free and open to all.

Peter Calthorpe, Principal, Calthorpe Associates; **Jim Walker**, Executive Director, Central Texas Sustainability Indicators Project; Chairman, Envision Central Texas

OPENING NIGHT RECEPTION5:00 pm – 6:00 pm | *Exhibit Hall 1*

Brought to you by ROMA Design Group

Come meet our CNU XVI exhibitors and network with other new urbanists. Light hors d'oeuvres will be served. Cash bar.

**Opening Night****PLENARY**6:00 pm – 7:00 pm | *Ballroom ABC*

Brought to you by Looney Ricks Kiss.

CNU XVI opens with a native Texan whose embrace of New Urbanism left a lasting mark on the nation's public housing. Henry Cisneros, former secretary of the U.S. Department of Housing and Urban Development, helped enact the HOPE VI program that helped transform the face of public housing by replacing towers on superblocks with traditional, mixed-income residential neighborhoods. As mayor of San Antonio during the 1980s, he led that city's downtown revival. Now the chief executive of an affordable housing investment fund, Cisneros, who signed the CNU Charter in 1996 at CNU IV, will discuss the legacy of HOPE VI and the challenges and opportunities ahead for urban developers. He will be introduced by Texas State Rep. Mike Krusee, a CNU Board member who chairs the Texas House of Representatives' Transportation Committee.

KEYNOTE: **Henry Cisneros**, Chair, CityView

Hon. Mike Krusee, Texas House of Representatives; **Hank Dittmar**, Chief Executive, The Prince's Foundation for the Built Environment; **John O. Norquist**, President and CEO, Congress for the New Urbanism

CHAPTER MEET-UPS

8:30 pm – 10:00 pm

Meet up with other CNU members from back home for networking and discussion. See program insert for details.

THE UNFORESEEN

Movie. \$8.25

See originalalamo.com for showtimes.

Alamo Drafthouse Cinema, 1120 S. Lamar Blvd., Austin, Texas

This film chronicles Austin's struggle to balance growth and preservation.

FRIDAY

Friday **April 4****CONGRESS REGISTRATION**7:00 am – 6:30 pm | *Palazzo Area, Level 1***CONTINENTAL BREAKFAST**7:00 am – 8:15 am | *Exhibit Hall 1*

8: Central Austin's Parks

2:00 pm – 4:00 pm

9: East Austin: Infill and Balance**Friday Morning****PLENARY**8:15 am – 9:15 am | *Ballroom ABC*

Brought to you by Catellus

Developer Panel:**The Competitive Advantage of the New Urbanism**

Many real estate markets are in crisis, but not the New Urbanism. Leading developers of town centers, traditional neighborhood development, and mixed-use urban infill projects use the power of urbanism to capture regional demand, secure public incentives, command higher rents, and sustain sales. These visionary developers understand the power of place to position their communities to outperform in any market. Learn why New Urbanism makes sense now more than ever.

William Geitema, Jr., Arcadia Realty Corp.; **Steve Maun**, President, LeylandAlliance LLC; **Greg Weaver**, President, Catellus Development Group, a ProLogis company

MODERATOR: Scott Polikov, Principal, Gateway Planning Group

CONCURRENT SESSIONS

This year CNU XVI offers two types of concurrent sessions:

- ★ **FUNDAMENTAL** sessions are geared toward members who are either new to the CNU or who are new to the particular topic being discussed.
- ★ **IN-DEPTH** sessions probe more deeply into a particular topic and are geared toward more tenured CNU members or those who hold a deeper knowledge of the session topic.

CONCURRENT SESSIONS★ **MORNING 9:30 AM – 10:45 AM****Evolving Strategies in Retrofitting Suburbs**

DESIGN AND ARCHITECTURE / IN-DEPTH

Meeting Room 5

As more and more (and larger and larger) dead malls, office parks, and subdivisions are retrofitted into urban places, the strategies for doing so continue to be refined. Learn about innovative solutions through exemplary case studies.

Kris Longson, Vice President of Development, General Growth Properties;

David Manfredi, Principal, Elkus/Manfredi Architects; **Galina Tahchieva**,

Director of Town Planning, Duany Plater-Zyberk & Company

MODERATORS: Ellen Dunham-Jones, Director of the Architecture Program,

Georgia Institute of Technology; **June Williamson**, Adjunct Assistant

Professor, City University of New York Dept. of Architectural Technology

The School of Hard Knocks:**Lessons Learned from FBC Implementation**

CODES / FUNDAMENTAL

Meeting Room 4

Ventura, California, adopted a plan based on the CNU Charter to systematically regulate growth through a form-based code. Initial attempts for city-wide application were stopped short, with downtown coded so far. Seeking to save its urban heritage, Montgomery, Alabama, adopted an optional SmartCode with a mandatory application only for downtown. Explore the challenges and opportunities of implementation in these cutting-edge communities.

Rick Cole, City Manager, Ventura, Calif.; **Kenneth J. Groves**, AICP, Director, Planning & Development, City of Montgomery, Ala.

MODERATOR: Daniel Slone, Esq., Partner, McGuireWoods LLP

Friday *continued*

Academic Call for Papers Part I

COMMUNITIES AND REGIONS / FUNDAMENTAL

Meeting Room 7

Showcasing research on a broad range of topics about New Urbanism, eight papers were selected for their academic rigor, scholarship, originality, and creativity. This session presents four of them. If you are interested in the most recent investigations of tools and trends, you won't want to miss this session.

Thomas E. Low, AIA, LEED, Director of Town Planning, Duany Plater-Zyberk & Company, presenting “Light Imprint New Urbanism: A Framework for Urban and Environmental Sustainability”; **Stephen Marshall**, Senior Lecturer, Bartlett School of Planning, University College London, presenting “Urbanism in Evolution”; **Michael Mehaffy**, Project Manager, Structura Naturalis Inc., presenting “Mechanism Design Theory and Sustainable Urban Form”; **Nikos Salingaros**, PhD, ICTP, INTBAU, Professor of Mathematics, University of Texas at San Antonio, and **Kenneth G. Masden, II**, Associate Professor of Architecture, University of Texas at San Antonio, presenting “Perforated, Bent, and Folded: Urban Fabric for Human Consumption”

MODERATOR: Frederick Steiner, Dean, School of Architecture, University of Texas at Austin

Living Diversity: Lessons for New Urbanists from the HOPE VI Experience

COMMUNITIES AND REGIONS / IN-DEPTH

Meeting Room 8

What lessons has the HOPE VI experience taught us? What worked and still works? What didn't and must be fixed? What can the next federal public housing initiative take from and build upon HOPE VI? Learn the top positive and negative lessons from HOPE VI.

Tom Gallas, Principal, Torti Gallas and Partners; **Henry Cisneros**, Chair, CityView; **Kevin Hardman**, Vice President of Development, Kimball Hill Urban Centers; **Peter Calthorpe**, Principal, Calthorpe Associates
MODERATOR: Raymond L. Gindroz, Co-founder and Principal, Urban Design Associates

Design of Mueller Airport

DESIGN AND ARCHITECTURE / FUNDAMENTAL

Meeting Room 10

Redevelopment of Robert Mueller Municipal Airport is Austin's first large-scale project to follow new urbanist principles, setting a new bar for environmental sustainability and addressing economic development, neighborhood compatibility, transit-oriented development, and the creation of an authentic Austin character. Representatives from the City of Austin, ROMA Design Group, and the neighborhoods provide a progress report and explore how issues were addressed.

Jim Adams, Principal Architect, ROMA Design Group; **Sue Edwards**, Director of Economic Growth and Redevelopment Services, City of Austin; **Jim Walker**, Executive Director, Central Texas Sustainability Indicators Project; Chairman, Envision Central Texas; **Greg Weaver**, President, Catellus Development Group, a ProLogis company
MODERATOR: Peter Park, Manager, Community Planning and Development, City of Denver

Green Streets: Multi-Modal, Multi-Functional, and Totally Fabulous

SUSTAINABILITY / FUNDAMENTAL

Meeting Room 3

Designing a “green” street is hard. There's competition for every square foot (travel lanes, parking, bikes, pedestrians, trees, drainage), and myriad technical requirements (load bearing, emergency services, trash collection, maintenance, soils, pollutants). Learn how to design and build streets that meet the conventional functions and serve as environmental systems. Be inspired by examples of built work—multi-modal, multi-functional, and totally fabulous!

Janet Attarian, Project Director, Streetscape & Urban Design, City of Chicago; **Philip Erickson**, AIA, President, Community Design + Architecture; **T. Frick McNamara**, ASLA, Associate Principal, MITHUN architects + designers + planners

MODERATOR: Tom Richman, Principal, Office of Tom Richman

Green Buildings, Green Neighborhoods

SUSTAINABILITY / IN-DEPTH

Meeting Room 9

This session uses case studies with varying approaches to green building and urban form to examine the nexus between sustainable land use and construction practices. Learn how green builders can best integrate their projects into a connected urban fabric and what sustainable construction techniques deliver the most benefit to new urbanist developments.

Chris Czichos, Architectural Project Coordinator, Nine Sixty Nine Development; **Peter L. Pfeiffer**, FAIA, Principal, Barley & Pfeiffer Architects; **Gail Vittori**, Co-Director, Center for Maximum Building Potential
MODERATOR: Doug Farr, President and Founding Principal, Farr Associates Architecture & Urban Design

Great Streets and Multi-Way Boulevard Design

TRANSPORTATION / IN-DEPTH

Meeting Room 6

Come learn about the design of multi-way boulevards within the context of Great Streets, with an emphasis on recent lessons learned, the ecological design opportunities of boulevards, and some of the devils to be found in the details.

Allan Jacobs, Professor Emeritus of City & Regional Planning and Urban Design, University of California Berkeley College of Environmental Design; Principal, Cityworks; **Elizabeth Macdonald**, PhD, Assistant Professor of City & Regional Planning and Urban Design, University of California Berkeley College of Environmental Design

BREAK

10:45 am –11:15 am | *Exhibit Hall 1*

Brought to you by Consort Inc., Bosse & Turner Associates, Inc., Hensel Phelps

Refreshments provided.

Friday *continued*

★ CONCURRENT SESSIONS ★ MID-MORNING 11:15 AM – 12:30 PM

The Role of Building Types in Form-Based Codes

CODES / FUNDAMENTAL

Meeting Room 8

Organizing a code around specific building types and their precise dimensional requirements is common in form-based codes, often in contrast to using measures such as FAR, height, and density. How does the use of building types work? What are some approaches to integrating them at neighborhood and citywide scales? What are advantages or disadvantages to using less prescriptive measures? Is FAR even necessary in a form-based code?

Marina Khoury, Director of Town Planning, Duany Plater-Zyberk & Company; **Stefanos Polyzoides**, Principal, Moule & Polyzoides Architects and Urbanists
MODERATOR: Kevin Klinckenberg, Principal, 180 Degrees Design Studio

Latino New Urbanism: Lessons Learned from the Southwest

COMMUNITIES AND REGIONS / FUNDAMENTAL

Meeting Room 3

Latino immigrants joining native-born Mexican-American citizens in the U.S. bring different uses of urban space to the existing built environment. Their homes, ciudades, pueblos, and ranchos are physically and socially different from the typical American suburb, and Latinos are recreating a sense of place in U.S. neighborhoods. Learn how by examining culture, urban design, and social characteristics.

Cecilia Giusti, Assistant Professor, Dept. of Landscape Architecture & Urban Planning, College of Architecture — Texas A&M University; **Moises Gonzales**, Loeb Fellow, Harvard University, Graduate School of Design
MODERATOR: James Rojas, Founder, Latino Urban Forum

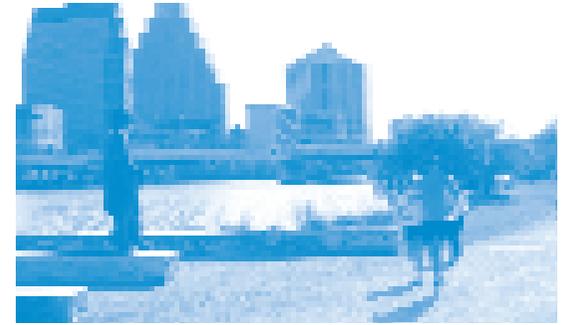

Learning from the Booming Region

COMMUNITIES AND REGIONS / IN-DEPTH

Meeting Room 9

Can New Urbanism keep up with the country's booming regions? As our regions grow at astounding rates, we will look to the past, present, and future of regional planning for lessons learned across the country. This session explores strategies for successful transportation, housing, and environmental planning.

Peter Calthorpe, Principal, Calthorpe Associates; **Frederick Steiner**, Dean, School of Architecture, University of Texas at Austin
MODERATOR: James Murley, Director, Catalanese Center for Urban & Environmental Solutions, Florida Atlantic University

How to Avoid Post-Charrette Project Meltdown

DESIGN AND ARCHITECTURE / IN-DEPTH

Meeting Room 6

So the charrette went great. Now what? What are potential fatal flaws in the post-charrette phase that can make or break your project? How do you maintain the momentum created at the charrette through the approvals process in a changing political environment? Hear lessons learned from successes and failures as described by three CNU veterans.

Charles C. Bohl, Knight Program Director, University of Miami School of Architecture; **Stephen Coyle**, AIA, LEEP AP, Owner, Town-Green; **Elizabeth Plater-Zyberk**, Principal, Duany Plater-Zyberk & Company
MODERATOR: William Lennertz, Executive Director, National Charrette Institute

Park Once Strategy

DEVELOPMENT AND FINANCE / FUNDAMENTAL

Meeting Room 4

Parking structures don't have to be financial drains and urban dead zones. Learn from cities that are using the “park once” strategy to shape a better downtown. This session will cover the increased build-out opportunity from parking aggregation, proper design for parking structures, the integration of parking with transit, and cutting-edge financing strategies.

Rick Cole, City Manager, Ventura, Calif.; **Brewster McCracken**, Council Member, City of Austin
MODERATOR: Neal Payton, AIA, Principal, Torti Gallas and Partners

Open Space and Urban Nodes: A Club Sandwich or Bowl of Grapes?

SUSTAINABILITY / IN-DEPTH

Meeting Room 10

New urbanist conservation development pairs clustered activity nodes with open space preservation. If these nodes don't integrate with neighbors and transportation networks, we get a “bowl of grapes”—disconnected development and lost ecological potential. The alternative: a “club sandwich,” where nodes and open space form interconnected networks. What are the tools for achieving this vision? How do we make the sum more than the parts?

Daniel Stone, Esq., Partner, McGuireWoods LLP; **Robert Patterson**, Graduate Advisor for Community & Regional Planning, Associate Professor, University of Texas at Austin, School of Architecture; **Jim Heid**, President and Founder, UrbanGreen
MODERATOR: Matt Hollon, Environmental & Conservation Program Manager, Watershed Protection & Development Review Department, City of Austin

Friday *continued*

Getting on Track: Streetcars in the Boomtown

TRANSPORTATION / FUNDAMENTAL

Meeting Room 7

Streetcars are proving powerful tools for redevelopment, leveraging value, and creating lively neighborhoods where people don't have to drive. Find out why streetcars — more than any other transportation mode — are particularly conducive to promoting new urbanist development. Learn about the robust public-private partnerships that built the Portland and Seattle streetcar systems.

GB Arrington, Principal Practice Leader, PB PlaceMaking; **Charlie Hales**, Planner and Project Manager, HDR Inc.; **Keith Jones**, Regional Transit Planning Manager, URS Corporation

MODERATOR: Gloria Ohland, Vice President for Communications, Reconnecting America

CNU and the ITE Manual

TRANSPORTATION / FUNDAMENTAL

Meeting Room 5

Can new urbanists work with engineers to shape future road design to meet CNU Charter principles? CNU and ITE produced *Context Sensitive Solutions in Developing Major Urban Thoroughfares for Walkable Communities* as a recommended practice. Now it's available to local agencies and designers. How can planners work with engineers to use this resource successfully to meet our CNU Charter principles?

James M. Daisa, Senior Project Manager, Kimley-Horn and Associates, Inc.;

Lucinda Gibson, Principal, Smart Mobility, Inc.; **Barbara McCann**, Coordinator, National Complete Streets Coalition;

MODERATOR: Brian Bochner, Senior Research Engineer, Texas Transportation Institute

INITIATIVE LUNCHES

12:45 pm – 2:00 pm | *Box lunches available for purchase at Exhibit Hall 1*

Lunch, Laud and Launch the New *Journal of Urbanism*

Meeting Room 4

The new *Journal of Urbanism* is a multi-disciplinary scholarly journal that focuses on human settlement and its relation to sustainability, social justice, and cultural understanding. Join us at the Education lunch to hear about it from the editors and discuss the implications on research in urbanism, particularly New Urbanism. This will be an interactive session.

Charles C. Bohl, Knight Program Director, University of Miami School of Architecture; **Matthew Hardy**, Secretary, International Network for Traditional Building, Architecture & Urbanism; **Emily Talen**, PhD, AICP, Professor, School of Geographical Sciences and School of Planning, Arizona State University

MODERATOR: Lucy Rowland, Planning Commissioner, Athens-Clarke County, Ga.

Accessibility Lunch

Meeting Room 3

By emphasizing public transportation and mixed-use development, urbanism offers an ideal opportunity for people with disabilities and seniors to be part of active communities. But this only works if home designs permit them to visit neighbors and to remain in their own homes. This lunch will include presentations that explain visitability and provide a range of well-designed visitable housing examples.

Shannon Chance, AIA, Associate Professor of Architecture, Hampton University

Affordability Lunch

Meeting Room 7

In 2007, CNU hosted an Affordable Housing Summit to continue the conversation on CNU's specific role in the provision of quality diverse housing. Learn about the latest CNU efforts, how it may impact your work, and how to get involved.

Neal Payton, AIA, Principal, Torti Gallas and Partners

Project for Transportation Reform Lunch

Meeting Room 5

CNU's Project for Transportation Reform continues to advance on a number of different fronts. In November, CNU will host its Sixth Transportation Summit in Charlotte, North Carolina. This year's summit will be devoted entirely to transportation networks. Join us for discussions of how we can get government back into the business of consciously building urban transportation networks that function to support walking, biking, transit, and placemaking. This interactive session will also touch on freeway teardown, emergency responders, street design, and more.

Philip Erickson, AIA, President, Community Design + Architecture;

Norman Garrick, Associate Professor, Civil and Environmental Engineering,

University of Connecticut; **Thomas Kronemeyer**, Senior Associate,

Community Design + Architecture; **Marcy McNelly**, AIA, Founder,

Urbsworks, SERA + Urbsworks Architecture & Urban Design; **Danny**

Pleasant, Interim Director, City of Charlotte, N.C., Department of

Transportation

★ CONCURRENT SESSIONS AFTERNOON 2:15 PM – 3:30 PM

Form-Based Code Organizing Principles

CODES / FUNDAMENTAL

Meeting Room 7

In form-based codes, the zones are categorized by the intensity of physical form. A variety of organizing principles regulate the scale, form, and intensity of development rather than emphasizing land uses. Those organizing principles include the Transect, frontages, street types, and building types. The respective organizing principles offer advantages and disadvantages in different conditions such as downtown redevelopment versus greenfields.

Geoffrey Ferrell, Ferrell Madden Associates LLC; **Sandy Sorlien**, Principal, SmartCode Local

MODERATOR: Bill Spikowski, Principal, Spikowski Planning Associates

Friday *continued*

Gimme Shelter: Housing in Developing Countries

COMMUNITIES AND REGIONS / IN-DEPTH

Meeting Room 6

The sheer number of people to be housed in urbanizing centers around the globe is staggering. In many developing countries the basic principles of New Urbanism are an absolute necessity. Unreliable infrastructure, economics, and societal needs mandate mixed-use developments. However, scarcity of land, exorbitant land prices, and fear of appearing backward force developers to build tall buildings. This session will examine housing solutions for developing countries.

Jaime Correa, Founding Partner, Jaime Correa and Associates;

Dhiru A. Thadani, Principal Ayers/Saint/Gross

Knowing When to Invent Your Own Government

COMMUNITIES AND REGIONS / FUNDAMENTAL

Meeting Room 5

Are homeowner associations necessary for all TNDs? Does city development need the same governance structure as a suburban neighborhood? Are there alternatives to homeowner associations? If so, what are their downsides? Should we be regulating clotheslines, trucks, and dogs? What about house color, yard windmills, and photovoltaics? Learn the issues and opportunities in the “software” of new urbanist and sustainable developments.

Doris Goldstein, Law Office of Doris S. Goldstein; **Daniel Slone**, Esq., Partner, McGuireWoods LLP

Visualizing Density—and Getting It Right

DESIGN AND ARCHITECTURE / FUNDAMENTAL

Meeting Room 9

The need for well-designed density in compact, walkable, mixed-use environments has never been greater given the context of climate change, energy efficiency, and population growth. Julie Campoli and Alex MacLean, co-authors of *Visualizing Density*, will share their experiences chronicling dozens of neighborhoods with varying density. Art Lomenick of Trammell Crow will report from the front lines as well.

Julie Campoli, Co-author, *Visualizing Density*, Principal of Terra Firma Urban

Design; **Art Lomenick**, Managing Director, Trammell Crow Company; **Alex**

MacLean, Co-Author, *Visualizing Density*, Landslides Aerial Photography

MODERATOR: Armando Carbonell, Senior Fellow and Chair, Department of Planning and Urban Form, Lincoln Institute of Land Policy

The Reconstruction of America

DEVELOPMENT AND FINANCE / FUNDAMENTAL

Meeting Room 10

America will see more construction during the next generation than any other in the nation's history. Most of it will be the reconstruction of existing places. Combined with key demographic trends and changing preferences favoring urbanity, America has the opportunity to be rebuilt consistent with new urbanist principles.

Katharine Kelley, President, Green Street Properties; **Arthur C. Nelson**,

Virginia Tech—Urban Affairs and Planning

Scaling Adaptation: How Prepared Are You?

SUSTAINABILITY / FUNDAMENTAL

Meeting Room 4

The sleeping giant has awoken—the planet is warming and humans are to blame. Can the giant be sedated or lulled back into slumber? See evidence of the inevitable effects of an already warmer planet. Hear from key climate experts with experience in developing local climate change adaptation strategies, and learn about locally led activities that benefit environment and economy alike.

Joey Tabone, Senior Advisor for Climate Change, The Prince's Foundation for the Built Environment; **Hon. Mayor Will Wynn**, City of Austin

Smart Transit, Smart Streets, Smart TOD

TRANSPORTATION / FUNDAMENTAL

Meeting Room 3

Successful transit-oriented development requires a balance of transit and design to welcome development. This includes retrofitting streets to slow traffic, the right mix of development products, and achieving a community consensus. This session looks at the crosscutting elements of successful TODs by taking a look at a billion-dollar mixed-use TOD in Denver and planned TODs in Austin, Texas, and Tysons Corner, Virginia.

Ferd Belz, President, Cherokee Denver LLC; **David Cutler**, Project Manager,

Urban Design and Planning, Torti Gallas and Partners; **Brewster McCracken**,

Council Member, City of Austin;

MODERATOR: GB Arrington, Principal Practice Leader, PB PlaceMaking

Narrow Streets and the Fire Truck

TRANSPORTATION / FUNDAMENTAL

Meeting Room 8

What happens when the desire for narrow streets collides with fire service concerns about access for ambulances and fire engines? Often one party “wins” and the other feels that its legitimate goals are compromised or ignored. It doesn't have to be so. Come learn how CNU, members of the fire service community, and the U.S. Environmental Protection Agency are working to find mutually acceptable solutions.

Eric Dumbaugh, Assistant Professor, Dept. of Landscape Architecture and

Urban Planning, Texas A&M University; **Richard Milk**, Community

Development Coordinator, City of San Antonio; **Carl Wren**, Chief Engineer,

Austin Fire Department

MODERATOR: Lee Sobel, Real Estate Development and Finance Analyst,

U.S. Environmental Protection Agency

BREAK

3:30 pm – 4:00 pm | *Exhibit Hall 1*

Brought to you by Consort Inc., Bosse &

Turner Associates, Inc., Hensel Phelps

Refreshments provided.

Friday *continued*

★ CONCURRENT SESSIONS LATE-AFTERNOON 4:00 PM – 5:15 PM

Form-Based Codes as a Tool to Preserve and Evolve Small-Town Downtowns

CODES / IN-DEPTH

Meeting Room 10

Practitioners discuss how form-based codes succeed in promoting orderly downtown development, from mixed-use main streets to adjacent neighborhoods.

Topics include protecting/enhancing community identity; encouraging the right uses for main street; providing for compatibility between different uses; providing incentive mechanisms to address disparate interests; facilitating housing diversity; providing for safe/effective traffic and appropriate parking; and conserving natural, cultural, and historic resources.

Robert Alminana, Principal, Hall Alminana Inc.; **James Hill**, AIA, AICP, Principal, Civic Design Associates; **Stefan Pellegrini**, Principal, Opticos Design Inc.

MODERATOR: **Laura Hall**, Principal, Hall Alminana Inc.

On the Border: A New Frontier for New Urbanism

COMMUNITIES AND REGIONS / FUNDAMENTAL

Meeting Room 4

New Urbanism is uniquely positioned to offer a visionary and constructive approach to urban design on the U.S.-Mexico border. A border region’s complexity includes security concerns, cross-cultural norms, and multiple, often-conflicting demands like industrial, retail, and civic land uses all in one place. Using a case study approach, this session covers both general issues and specific design strategies.

David Bergman, Principal, Economic Research Associates; **David Day**, Senior Project Manager, Moule & Polyzoides Architects and Urbanists; **Gabriel Diaz**, Architect and Landscape Architect, Labor Studio; Assistant Professor, Arizona State University; **Hon. Mayor Ruben Segura**, Mayor, City of Sunland Park, New Mexico

MODERATOR: **Dr. Aseem Inam**, Senior Project Manager, Moule & Polyzoides Architects and Urbanists

The Option of Urbanism:

Investing in a New American Dream

DEVELOPMENT AND FINANCE / FUNDAMENTAL

Meeting Room 7

There has been a structural market shift toward building walkable urban places, including downtown revitalization, New Urbanism, and transit-oriented development. This is fundamentally changing how the economy invests 35 percent of its wealth (representing the largest asset class: the built environment). Come learn about the impact of this shift.

Chris Leinberger, Visiting Fellow, The Brookings Institution; **Samuel Sherman**, Partner, Sam Sherman Assoc. LLC; Partner, New Urban Ventures LLC

Financing the New Urbanism in the Real World

DEVELOPMENT AND FINANCE / IN-DEPTH

Meeting Room 5

Understanding the factors that drive developers’ choices is critical to building the finest neighborhoods possible. Particularly acute are the financial constraints that developers face, ranging from cash

flow to bank regulations to investor returns. This session distills the financial motivations and constraints behind new urbanist development into key components so design professionals can help developers make informed decisions.

Ward Davis, Developer, Ruskin Heights; **Bill Tucker**, President, TND Consulting

MODERATOR: **Todd Zimmerman**, Principal, Zimmerman/Volk Associates Inc.

Eco-Balance Planning and New Urbanism

SUSTAINABILITY / IN-DEPTH

Meeting Room 6

No existing green building certification procedure or environmental impact evaluation tool presently goes beyond a linear approach toward conserving resources. This session explores how, by incorporating Eco-Balance Planning(TM) and Design into a new urbanist and Smart Code framework, we can actually determine success through balance, or completion, of the life cycle. Multiple examples of this principle’s application within different Transect zones will be given.

Pliny Fisk, III, Director, Center for Maximum Potential Building Systems

Correcting the Moses Freeways

TRANSPORTATION / IN-DEPTH

Meeting Room 8

Robert Moses once said, “Cities are created by and for traffic,” and urged that highways go through cities, not around them. This session reviews how his ideas impacted cities across the nation, from New York to New Orleans. In an era of funding concerns and global climate change, join us for a discussion on what a balanced transportation system looks like.

William E. Borah, Attorney and Author, *The Second Battle of New Orleans: A History of the Vieux Carré Riverfront-Expressway Controversy*; **Robert Fishman**, Professor, University of Michigan, Taubman College of Architecture and Urban Planning, and Author, *Bourgeois Utopias: The Rise and Fall of Suburbia*

MODERATOR: **John O. Norquist**, President and CEO, Congress for the New Urbanism

International Transportation Reform Efforts:

Toward a New Urbanist Approach

TRANSPORTATION / IN-DEPTH

Meeting Room 3

How does the CNU/ITE’s *Context Sensitive Solutions in Designing Major Urban Thoroughfares for Walkable Communities* compare with other international street design manuals, especially recent efforts in the U.K. and Australia? Experts discuss the recommended practice vis-a-vis other countries’ reform efforts on functional classification of streets, street networks, bicycle integration, green street design, and other issues, and how those reform efforts are influencing current practice.

Philip Erickson, AIA, President, Community Design + Architecture;

Elizabeth A. Wemple, PE, Associate Engineer, Kittelson & Associates, Inc.

MODERATOR: **Marcy McInelly**, AIA, Founder, Urbsworks, SERA + Urbsworks Architecture & Urban Design

Friday Evening

PLENARY

5:30 pm – 6:30 pm | *Ballroom ABC*

Brought to you by Endeavor Real Estate Group

Gigantism: Threat to Urbanism

There are few better to speak on counterproductive interventions in the American City than Robert A. Caro. As Lyndon Johnson’s preeminent biographer he is no stranger to Austin or urbanism. His Pulitzer Prize-winning biography of Robert Moses, *The Power Broker: Robert Moses and the Fall of New York*, has a favored spot on many new urbanists’ bookshelves. It documents in vivid and painstaking detail the brutal impact of Moses’ legacy of excessive road building and neighborhood-clearing urban renewal on the city form and city life that Jane Jacobs so valiantly defended. More recently, Caro has turned his attention to a pivotal historical figure who happened to be born and raised in the Texas Hill Country, just 40 miles west of Austin. *The Path to Power, Means of Ascent and Master of the Senate*—the first three volumes of his four-part biography of Lyndon B.

Johnson—won numerous literary and biography awards, including the Pulitzer, the H.L. Mencken Award, and multiple National Book Critics Circle Awards.

Before the keynote address, Richard Hall, leading new urbanist transportation engineer, will present Allan Jacobs with an Athena Award for Lifetime Achievement. Allan Jacobs is best known for his street design legacy, particularly his work on multi-way boulevards. His contribution will increase the value of urban fabric for years to come.

KEYNOTE: **Robert A. Caro**, Pulitzer Prize-Winning Author and Urban Historian **John O. Norquist**, President and CEO, Congress for the New Urbanism; **Allan Jacobs**, Professor Emeritus of City & Regional Planning and Urban Design, University of California Berkeley College of Environmental Design; Principal, Cityworks; **Richard Hall**, PE, President, Hall Planning & Engineering, Inc.

SALONS

8:30 pm – 10:30 pm | *All Salons in Ballroom ABC*

Salons at CNU XVI sponsored by PBS&J, Smart Mobility, Inc., and University of Notre Dame, School of Architecture

Network at these informal gatherings where CNU members discuss their work, tackle pressing issues, or continue conversations. A sample of salon topics follows, but it’s not too late to sign up to lead a topic. To suggest a salon topic, visit the CNU booth.

Salons *continued*

Light Imprint Initiative:

Integrating Sustainability and New Urbanism

The Light Imprint Initiative establishes Transect-based environmental performance metrics—something LEED-ND lacks. Gain an understanding of the Light Imprint Overlay strategy and tactics to apply it to your next land development project.

Nora Black, Designer, Duany Plater-Zyberk & Company; **Monica Carney**, Designer, Duany Plater-Zyberk & Company; **Patrick Kelly**, Designer, Habersham Land Company; **Lauren Koutrelakos**, Designer, Duany Plater-Zyberk & Company; **Thomas E. Low**, AIA, LEED, Director of Town Planning, Duany Plater-Zyberk & Company; **Guy Pearlman**, RLA, Project Manager, Duany Plater-Zyberk & Company

Complete Streets, Bikeways, Thoroughfare Design, the Transect: Why They’re Compatible

New urbanists, the Complete Streets movement, and modal advocates share many common goals. We’ll explore these commonalities and discuss ways to ensure that there’s overlap with minimal friction.

DeWayne Carver, Senior Project Manager, Hall Planning & Engineering, Inc.; **Barbara McCann**, Coordinator, National Complete Streets Coalition; **Michael Ronkin**, Designing Streets for Pedestrians and Bicyclists LLC

Small Developers’ Network

Small projects: big impact, big return. The Small Developers’ Network is for anyone who has the desire and motivation to implement the New Urbanism, one small project at a time.

Tom Richman, Principal, Office of Tom Richman

Sustainable Thinking and Architectural Form

Sustainable design opens new possibilities for architecture to recognize and reflect respect for life processes. Blending new technologies with deep understanding of tradition can create opportunities for exploring rational and more direct reasoning in building forms.

Milosav Cekic, Principal, MC/A Architects and Gateway Planning Group;

Pliny Fisk, III, Director, Center for Maximum Potential Building Systems;

Kent Butler, PhD, Director, Associate Dean for Research and Facilities, School of Architecture, The University of Texas at Austin; **Michael Garrison**, Professor, School of Architecture, University of Austin; **Ron Hubert**, Managing Director, Hozho International LLC

New Urbanism and Beyond:

Contemporary and Future Trends in Urban Design

This forthcoming book will examine New Urbanism and speculate about its future, with contributions from Christopher Alexander, Leon Krier, Peter Hall, Andrés Duany, Elizabeth Plater-Zyberk, Manuel Castells, William McDonough, Peter Calthorpe, Jan Gehl, Edward Soja, and Saskia Sassen, among others. Get a sneak peek of this exciting new resource, and learn about urban design in contemporary culture and where New Urbanism fits into broader trends.

Robert Fishman, Professor, University of Michigan, Taubman College of Architecture and Urban Planning, and Author, *Bourgeois Utopias: The Rise and Fall of Suburbia*; **Emily Talen**, PhD, AICP, Professor, School of Geographical Sciences and School of Planning, Arizona State University

Austin: America's Next Great Transit City

Peter Calthorpe will boldly envision the green future of American regions and apply that vision to Austin, one of America's fastest-growing cities. Calthorpe demonstrates how Austin can grow while dramatically improving its environmental performance with transit-oriented development. He is joined by Lee Walker, chairman of Capital Metropolitan Transportation Authority's board of directors.

CNU members will be treated to a special video message from His Royal Highness The Prince of Wales, who has been a leading figure in promoting sustainable building through the practice of traditional architecture and urbanism. The Prince will receive an Athena Medal for his lifetime dedication to reviving the art and craft of traditional building and promoting the benefits of traditional urbanism.

VIA VIDEO: His Royal Highness The Prince of Wales

Peter Calthorpe, Principal, Calthorpe Associates; **Hank Dittmar**, Chief Executive, The Prince's Foundation for the Built Environment; **Lee Walker**, Chairman of the Board, Capital Metropolitan Transportation Authority

★WORKING SESSIONS

9:45 AM – 12:30 PM

Working sessions are longer sessions for CNU members working on advancing New Urbanism initiatives throughout the year. Pick an initiative and play an active role in the movement to promote walkable, sustainable communities.

2008 Driehaus Form-Based Code Institute Awards

Meeting Room 9

A well-written form-based code can ensure that the community vision is what actually gets built. This session includes an awards presentation and in-depth analysis of the 2008 Driehaus Form-Based Code Award winners. Discover the exemplary features of each winner, and hear about the lessons learned from the winning communities. Ample time is also planned for Q&A with the winners and jurors.

Richard Bernhardt, Executive Director, Metropolitan Planning Department Nashville-Davidson County, Tenn.; **Peter Katz**, President, Form-Based Codes Institute; **Mary E. Madden**, Farrell Madden Associates; **Wendy Morris**, Director, Ecologically Sustainable Design; **Scott Polikov**, Principal, Gateway Planning Group

Open Space Technology Initiative

Meeting Room 3

Would you like to hash out a thorny new urbanist issue with colleagues? Join CNU initiative leaders in collaborative discussions about current and potential CNU projects. This strategy session allows participants to continue to self-organize productive workshops around topics they want to work on between Congresses.

Jennifer Hurley, President, Hurley-Franks & Associates; **Jim Kumon**, Designer, Miralles Associates

Green Council

Meeting Room 8

As a follow-up to the Green Council held in Alexandria, Virginia, this working session will build on the foundation laid at this historic event. There will be a presentation on the sustainability canons authored by Elizabeth Moule, Stefanos Polyzoides, and Hank Dittmar. The assembled group will also discuss and advance a proposal to amend the Charter. Results from this work session will be reported on Sunday.

Hank Dittmar, Chief Executive, The Prince's Foundation for the Built Environment; **John Massengale**, Architect 2.0; **Elizabeth Moule**, Principal, Moule & Polyzoides Architects and Urbanists; **Galina Tahchieva**, Director of Town Planning, Duany Plater-Zyberk & Company; **John Torti**, President, Torti Gallas and Partners

Saturday continued

Academic Call for Papers Part II/

Education Discussion

Meeting Room 4

Showcasing research on a broad range of topics about New Urbanism, eight papers were selected for their academic rigor, scholarship, originality, and creativity. This session presents four of them. If you are interested in the most recent investigations of tools and trends, you won't want to miss this session. The first 75 minutes feature paper presentations and the last 75 minutes feature a moderated discussion on the research agenda for New Urbanism.

Michael Arth, Pedestrian Villages, Inc., presenting "New Urbanism and New Pedestrianism in the 21st Century"; **Carol Atkinson-Palombo**, Professor of Geography, University of Connecticut, presenting "Phoenix Rising: Measuring Urban Densification Associated with Light Rail Transit (LRT)"; **Wesley Marshall**, P.E., PhD Candidate, University of Connecticut, presenting "Urbanism and Parking Demand in New England Cities"; **Chris McCahill**, Graduate Student, University of Connecticut, Civil and Environmental Engineering, presenting "The Impact of Transportation and Urban Planning on Carbon Emissions: A Case Study of Cambridge, MA" **MODERATOR: Elizabeth Plater-Zyberk**, Principal, Duany Plater-Zyberk & Company

Transportation Networks

Meeting Room 5

This session will offer insights into myths, challenges, and rays of light associated with the complex subject of transportation network planning. It will highlight both the British and American perspectives on networks. Breakout groups of session attendees will prepare for the next transportation summit in November 2008 and discuss a variety of network-related topics that members of the CNU Network Group have been working on to-date.

Fred Dock, Director, Dept of Transportation, City of Pasadena, Calif.; **Philip Erickson**, AIA, President, Community Design + Architecture; **Thomas Kronemeyer**, Senior Associate, Community Design + Architecture; **Stephen Marshall**, Senior Lecturer, Bartlett School of Planning, University College London; **Danny Pleasant**, Interim Director, City of Charlotte, N.C., Department of Transportation

CONCURRENT SESSIONS

★MORNING 9:45 AM – 11:00 AM

Marketing a New Choice and the Green Message

DESIGN AND FINANCE / IN-DEPTH

Meeting Room 10

In today's ever-changing world of real estate, new urbanist communities, neighborhoods, and districts offer consumers new choices. Identifying target markets and communicating the value proposition for these new choices requires a focus on branding as well as new marketing tools. Explore these facets and learn how to tell the story, focusing on the "green message" and inviting the market to choose New Urbanism in this competitive marketplace.

Jackie Benson, President, Benson Branding and Marketing; **Andrés Duany**, Principal, Duany Plater-Zyberk & Company

Public-Private Partnerships

DEVELOPMENT AND FINANCE / FUNDAMENTAL

Meeting Room 7

Partnerships between local governments and private developers can be effective mechanisms to implement public policy and ensure the financial viability of new urbanist projects. Panelists for this session will describe—from both the developer and local government perspectives—how partnerships can be used to provide affordable housing, encourage sustainable design, and facilitate redevelopment, while keeping focused on the bottom line.

Kyndel Bennett, Managing Director, Cherokee; **Laura Huffman**, Assistant City Manager, City of Austin; **Matt Whelan**, Senior Vice President, Catellus, A ProLogis Company

Sustainable Sites and LEED-ND

SUSTAINABILITY / IN-DEPTH

Meeting Room 6

This session compares and contrasts how the LEED for Neighborhood Development rating system and ASLA Sustainable Sites Initiative strive to encourage sustainable approaches to the way we plan and develop site infrastructure and open spaces at both macro- and micro-planning levels.

Susan Mudd, Environmental Attorney, Board Member, Congress for the New Urbanism; **Heather Venhaus**, Project Manager of the Sustainable Sites Initiative, Ladybird Johnson Wildflower Center **MODERATOR: Brian Ott**, Principal, TBG Partners

CONCURRENT SESSIONS

★MID-MORNING 11:15 AM – 12:30 PM

The Urbanism of the Large, Larger, Largest Buildings

DESIGN AND ARCHITECTURE / IN-DEPTH

Meeting Room 6

"Big box" retail stores, university buildings, hospital campuses, "mega-churches," and sports stadiums are all affecting development patterns within our cities, towns, neighborhoods, blocks, and streets. The immense presence of these specialized building types is profound and cannot be ignored. Where do they fit in the Transect? How can they do so successfully?

Erik Anderson, Design Principal, HOK; **David Greusel**, Principal, HOK Sport Venue Event; **Stephen Luoni**, Director, University of Arkansas Community Design Center **MODERATOR: Patrick L. Pinnell**, Principal, Patrick L. Pinnell AIA / Architecture & Town Planning LLC

Saturday *continued*

Louisiana: The New Planning Frontier

DESIGN AND ARCHITECTURE / IN-DEPTH

Meeting Room 10

What happens when private investment allows for the best of the best planners to take a new look at Louisiana? Recent developments and future plans will employ the most dynamic solutions for redefining Louisiana's land use and growth management. However, it doesn't happen overnight. Join us to find out why a laboratory of patient planning just might yield remarkable long-term results.

Peter Calthorpe, Principal, Calthorpe Associates; **Rachel DiResto**, Executive Vice President, Center for Planning Excellence; **Robin Rather**, CEO, Collective Strengths

MODERATOR: Raymond L. Gindroz, Co-founder and Principal, Urban Design Associates

New Urbanism and Our Water Supplies: The Challenges and Opportunities

SUSTAINABILITY / FUNDAMENTAL

Meeting Room 7

Community design affects the quality of local water resources, demand for water, and cost of water infrastructure. This session links the basic relationships that bind water resources and site, neighborhood, and community design decisions. Speakers provide case studies and policy tools that can be used to coordinate water and new urbanist projects so they complement rather than conflict with one another.

Pat Murphy, Environmental Officer, City of Austin; **Lynn Richards**, Senior Policy Analyst, U.S. EPA

MODERATOR: Judy Corbett, Executive Director, Local Government Commission

2008 CHARTER AWARDS LUNCHEON

12:45 pm – 2:15 pm | *Ballroom ABC*

Brought to you by Ardent Residential, L.P., Bury+Partners, Inc., Heritage Title Company of Austin, Inc., and Schlosser Development Corporation

Honoring the best in New Urbanism, the annual Charter Awards acknowledge expertly designed developments that enhance or repair their built and natural environments by fulfilling the principles of the Charter of the New Urbanism. Requires registration and a separate fee. Cost: \$40.

CONCURRENT SESSIONS

★ **AFTERNOON** 2:30 PM – 3:45 PM

Advanced Application of the Transect in Form-Based Coding

CODES / IN-DEPTH

Meeting Room 5

Most of the best form-based codes being produced today use the Transect as a framework, demonstrating its power as a regulatory system and lexicon. Many of these applications aren't out-of-the-box, but thoughtful adaptations. Some simply modify the names of Transect zones to make them more locally calibrated, while others have added zones or subsets to meet specific project requirements.

Victor Dover, Principal, Dover Kohl & Partners; **Geoff Dyer**, Director of Canadian Operations, PlaceMakers, LLC; Principal and Urban Designer, T-Six; **Daniel Parolek**, AIA, Principal, Opticos Design, Inc.

MODERATOR: Karen Parolek, Principal, Opticos Design, Inc.

Making the Connection Between Comprehensive Plans and Form-Based Codes

CODES / IN-DEPTH

Meeting Room 7

New urbanist comprehensive plans are increasingly calling for the development of form-based codes as one of the primary tools to implement the plan's vision. This session will detail the connection between comprehensive plans and the codes that implement them using examples from diverse regulatory environments, including both the planning-friendly and the property rights-friendly.

Ann B. Daigle, Arcade Projects South, Planning & Design; **Dennis Wilson**, Principal, Townscape

MODERATOR: Tom Yantis, Assistant City Manager, City of Georgetown, Texas

Tall Towers: Purposeful Density or Loose Tower Disease?

DESIGN AND ARCHITECTURE / IN-DEPTH

Meeting Room 4

Is the current movement of returning downtown to live in towers promoting livable cities, or are such towers a blight on urbanism? Who is right? Hear and ponder three points of view: No tall buildings; managed districts based on specific criteria, i.e., viewsheds, etc.; and the more density the better.

Sinclair Black, FAIA, Architect, Black & Vernooy; **Stefanos Polyzoides**, Principal, Moule & Polyzoides Architects and Urbanists

Why Do Our Buildings Look Like Crap? And What Can We Do About It?

DESIGN AND ARCHITECTURE / FUNDAMENTAL

Meeting Room 6

Hank Dittmar looks anew at what many call New Urbanism's Achilles' heel: the quality of our buildings. Marianne Cusato—of Katrina Cottages fame, co-author of *Get Your House Right*, and *Builder Magazine's* 4th most influential person in home building—shows how to get the building details right. Denese Bottrell discusses the value of better design from an industry perspective.

Denese Bottrell, Public Relations Manager, James Hardie Building Products; **Marianne Cusato**

MODERATOR: Hank Dittmar, Chief Executive, The Prince's Foundation for the Built Environment

Saturday *continued*

Affordable Housing in New Urbanism

COMMUNITIES AND REGIONS / FUNDAMENTAL

Meeting Room 9

From a policy standpoint, there are four main approaches to affordable housing relevant to new urbanists: developing affordable housing using tax credits and grants; increasing affordable homeownership opportunities through programs like Habitat; encouraging resident-controlled limited-equity ownership via community land trusts; or leveraging market-rate development through inclusionary zoning. This panel compares and contrasts these strategies as relevant options for New Urbanism.

Elizabeth Mueller, The University of Texas at Austin School of Architecture; **Andrew Nothstine**, Planner, Glattig Jackson Kercher Anglin, Inc.;

Kelly Weiss, Executive Director, PeopleTrust

MODERATOR: Emily Talen, PhD, AICP, Professor, School of Geographical Sciences and School of Planning, Arizona State University

Urbanism and the Market Turmoil: Staying Ahead and Coming Back Stronger

DEVELOPMENT AND FINANCE / FUNDAMENTAL

Meeting Room 3

Conventional developers try conventional strategies when markets run into trouble: trim operations, dump inventory, reduce debt, and find new sources of financing. This experienced panel will review the special options—and brighter prospects—that new urbanists have for retooling. These include emphasizing rental apartments, office, and retail; working on deals with long gestation periods; pursuing civic buildings, schools, and churches; new offerings like live/work lofts; and cultivating appraisers and lenders. With preparation, we can be on our game when production builders learn their future is in New Urbanism.

Tim Busse, Vice President/Director of Architecture, Whittaker Builders Inc. William Geitema, Jr., Arcadia Realty Corp.; **Lee Sobel**, Real Estate Development and Finance Analyst, U.S. EPA

MODERATOR: John Anderson, Vice President, Planning and Design, New Urban Builders, Inc.

Retail's Role in the New Urbanism

DEVELOPMENT AND FINANCE / IN-DEPTH

Meeting Room 10

New Urbanism promises our daily needs can be met within walking distance of home, yet the movement has largely failed to deliver. Meanwhile, across the U.S., innovative retail projects are increasingly integrating uses and creating lively urban places. Can retail successfully integrate into walkable urban frameworks? Leading retailers address market realities, challenges to new urbanist developments, and insights to better integrate retail into communities.

Terry Montesi, Founding Partner, Trademark Property Co.; **Lyneir Richardson**, VP-Urban Retail Development, General Growth Properties; **Kirk Rudy**, Managing Principal, Endeavor Real Estate Group; **Tom Terkel**, President, Cencor Urban

MODERATOR: Terry Shook, Principal, Shook Kelley Architects

Right-Sizing Parking for TODs and Mixed-Use

TRANSPORTATION / IN-DEPTH

Meeting Room 8

The biggest challenge in a transit-oriented development is getting the parking right. New national research proves what has been intuitively obvious: TODs are over-parked. Reducing parking to match actual performance has big implications for the affordability, built form, financial return and the environmental footprint of these projects. Join in a spirited discussion on how to creatively address parking.

Neal Payton, AIA, Principal, Torti Gallas and Partners; **Jeff Tumlin**, Principal, NelsonNygaard Consulting Associates

MODERATOR: GB Arrington, Principal Practice Leader, PB PlaceMaking

3:45 pm – 4:00 pm | *Ballroom ABC pre-function space*

Brought to you by Consort Inc., Bosse & Turner Associates, Inc., and Hensel Phelps

Refreshments provided.

CONCURRENT SESSIONS

★ **LATE-AFTERNOON** 4:00 PM – 5:15 PM

Value Capture through TOD and Form-Based Codes

CODES / IN-DEPTH

Meeting Room 3

Transit-oriented developments can harness substantial value. Value capture has become critical to the symbiosis of transportation infrastructure and the projects that make TODs thrive. Successes in places like Denver, Colorado, Dallas, and Leander, Texas, are forging ways to marry placemaking, form-based codes, and public-private finance to expand the scale of the New Urbanism.

Dena Belzer, Principal, Strategic Economics; **Scott Polikov**, Principal, Gateway Planning Group

MOERATOR: Mike Sims, AICP, Senior Program Manager, North Central Texas Council of Governments

Gentrification—Urban Evolution or Community Destruction?

COMMUNITIES AND REGIONS / FUNDAMENTAL

Meeting Room 7

This session begins with a dramatic photo essay documenting East Austin. Home to Hispanic and African-American communities for 75 years, with its close proximity to downtown and commuter rail coming this year, East Austin's demographics and urban landscape are quickly changing forever. Hear a discussion of gentrification and what, if anything, should be done to stem the change. Visit Austin's Mexican American Cultural Center (600 River St., a 5-minute walk from the Convention Center) to view John Langmore's East Austin photography.

John O. Norquist, President and CEO, Congress for the New Urbanism; **Emily Talen**, PhD, AICP, Professor, School of Geographical Sciences and School of Planning, Arizona State University; **Juan Valadez**, East Austin Community Organizer

MODERATOR: John Langmore, Co-chair, CNU XVI Local Host Committee, Photographer

SATURDAY *continued***Harnessing the Multi-Generational Demand for Urbanism**

COMMUNITIES AND REGIONS / IN-DEPTH

Meeting Room 4

The Boomers are retiring and tiring of their McMansions, while Gen Y is emerging and struggling to afford starter homes. Both are looking to vibrant urban places to provide their perfect lifestyle answers. Join this panel of design, development, and real estate experts and examine what the demographic trends, design demands, and shift in wealth mean to cities and suburbs.

Monte Anderson, President, Options Real Estate; **Andrés Duany**, Principal, Duany Plater-Zyberk & Company; **Todd C. LaRue**, Vice President, RCLCO Real Estate Advisors

MODERATOR: **Jim Kumon**, Designer, Miralles Associates

Revenge of the Slab Monsters

DESIGN AND ARCHITECTURE / IN-DEPTH

Meeting Room 6

We present a new chapter of an ancient saga in which anti-urbanist evil-doers disguised in green raiment arm themselves with solar diagrams to spread Hilbersheimerian slab-blocks out upon the land, attacking with renewed ferocity the fundamentals of urban civilization: the perimeter block and the rue corridor. We recognize and celebrate a few elegant urbanites, in spotless green, basking in the sunlight.

Elen Dunham-Jones, Director of the Architecture Program, Georgia Institute of Technology; **Elizabeth Moule**, Principal, Moule & Polyzoides Architects and Urbanists

MODERATOR: **Dan Solomon**, Principal, WRT Solomon E.T.C.

Accessible Communities: Accommodating Our Booming Population

DESIGN AND ARCHITECTURE / FUNDAMENTAL

Meeting Room 5

Vibrant communities accommodate aging and diversity. Presenters explain why it's critical to design visitable homes across all Transects and will show visitable housing prototypes developed by UDA (for Habitat), the IDEA Center at SUNY-Buffalo, The New Urban Guild, and Hampton University. Learn about distribution of the aging population across Transects, AARP's recommendations, and the ease of including basic mobility support in every dwelling.

Raymond L. Gindroz, Co-founder and Principal, Urban Design Associates; **Steve A. Mouzon**, AIA, LEED, Principal, The New Urban Guild; **Michael E. O'Neal**, Coordinator, Housing Options, O&S, Livable Communities, AARP; **Edward Steinfeld**, Professor of Architecture and Director, Center for Inclusive Design and Environmental Access, School of Architecture and Planning, SUNY/Buffalo

MODERATOR: **Shannon Chance**, AIA, Associate Professor of Architecture, Hampton University

New Urbanism for Production Builders

DESIGN AND ARCHITECTURE / FUNDAMENTAL

Meeting Room 10

Are big builders the enemies or friends of New Urbanism? How can the largest builders help address the issues of affordability and scale for New Urbanism while maintaining diversity and quality urbanism? This session explores the various successes and pitfalls of working at a scale beyond individually crafted, or niche developments.

Tim Busse, Vice President/Director of Architecture, Whittaker Builders Inc.; **Kevin Klinkenberg**, Principal, 180 Degrees Design Studio; **Geoffrey Mouen**, Principal, Geoffrey Mouen Architects; **Lee Sobel**, Real Estate Development and Finance Analyst, U.S. EPA

Pedestrian Oriented Streets: Human Behavior of Streets

TRANSPORTATION / FUNDAMENTAL

Meeting Room 8

We experience the world differently when we travel at 3 m.p.h. instead of 55 m.p.h. Join us as we examine walking across the Transect by exploring the concepts of citywide planning for pedestrian orientation, shared streets as a design philosophy, and methodologies for communicating how and why different public spaces work for pedestrians in different ways.

Stephen Marshall, Senior Lecturer, Bartlett School of Planning, University College London; **Norman Garrick**, Associate Professor Civil and Environmental Engineering, University of Connecticut

MODERATOR: **Terri Musser**, Senior Transportation Planner, Charlier Associates, Inc.

The Convenient Truth: Cities and Sustainability

TRANSPORTATION / IN-DEPTH

Meeting Room 9

The relationship between cities and climate change seems little understood, even as the world awakens to global warming and exploding urban populations. New Urbanism must show that compact connected cities and suburbs with efficient buildings are the convenient remedy for the inconvenient truth. Hank Dittmar explains the link between urbanism and carbon emissions, and presents the work of The Prince's Foundation for the Built Environment.

Hank Dittmar, Chief Executive, The Prince's Foundation for the Built Environment

RESPONSES BY: **Doug Kelbaugh**, FAIA, Dean of the Taubman College of Architecture & Urban Planning, University of Michigan; **Robin Rather**, CEO, Collective Strengths

SATURDAY *continued***Saturday Evening****PLENARY**5:30 pm – 6:15 pm | *Ballroom ABC*

This evening gathering will highlight a range of CNU's accomplishments in 2007 and preview how CNU is breaking new ground with its holistic approach to a sustainable future. Join us as we welcome new CNU Executive Committee members. We will also get an exciting preview of CNU XVII, which will take place from June 10–14, 2009, in Denver, Colo. Then, Geoffrey Anderson, new executive director of Smart Growth America, will review how Smart Growth and New Urbanism promote Sustainability. Smart Growth America and CNU are close allies, and Geoff will lay out the vision for our partnership.

Geoffrey Anderson, Executive Director, Smart Growth America; **Hank Dittmar**, Chief Executive, The Prince's Foundation for the Built Environment; **Raymond L. Gindroz**, Co-founder and Principal, Urban Design Associates; **Jacky Grimshaw**, Vice President for Policy, Transportation and Community Development, Center for Neighborhood Technology; **John O. Norquist**, President and CEO, Congress for the New Urbanism

SATURDAY NIGHT PARTY

7:00 pm – 8:00 pm Dinner

8:30 pm – 11:00 pm Entertainment

Austin Music Hall, 208 Nueces, Austin, Texas

Brought to you by 360 Condominiums, AMLI Residential, Endeavor Real Estate Group, Gables Residential, and Verano

In a city born to party, CNU's big gig will be unforgettable, with great Texas BBQ and dancing to the only-in-Austin sounds of the Gourds — the Hill Country's favorite alt country/jam rock/bluegrass (or is it back-porch hillbilly punk?) band. Be there with boots on. Cash bar. Requires Ticket. Cost: \$60.

SUNDAY

Sunday **April 6****CONGRESS REGISTRATION**9:00 am – 1:00 pm | *Palazzo Area, Level 1***CONTINENTAL BREAKFAST**9:00 am– 10:00 am | *Ballroom ABC***Sunday****CLOSING PLENARY**10:00 am – 12:00 pm | *Ballroom ABC***The Green Agenda for the CNU**

It is becoming increasingly clear that our historic environmental predicament cannot be solved without a shift that makes walkable, sustainable New Urbanism the status quo. So how should CNU best enable this shift? In addressing this question, CNU's President and CEO John Norquist will present New Urbanism as the Convenient Remedy to the "Inconvenient Truth" of global climate change—a campaign that will make communities more livable and cohesive, as we advance reforms in street design, zoning codes, and other fields to remove the barriers that thwart good urbanism.

And deep in the heart of Texas oil country, James Howard Kunstler, author of *The Long Emergency*, *The Geography of Nowhere*, and *The City in Mind*, will have plenty to say about the coming withdrawal from our hydrocarbon addiction in "The Long Emergency 2008 Update." And as this session becomes an interactive forum, you can expect updates on member-driven sustainability efforts, including some launched at last fall's Green Council and involving leading members such as Galina Tahchieva, John Massengale, Elizabeth Moule, Hank Dittmar, and Stefanos Polyzoides.

The session begins with Robert B. Hunter, President of the American Planning Association, discussing how CNU and APA members can pursue sustainable communities by working on common goals.

Robert B. Hunter, FAICP, President of the American Planning Association; **Hank Dittmar**, Chief Executive, The Prince's Foundation for the Built Environment; **Doug Farr**, President and Founding Principal, Farr Associates Architecture & Urban Design; **James Howard Kunstler**, Author; **John O. Norquist**, President and CEO, Congress for the New Urbanism

OPEN MICROPHONE12:00 pm – 1:00 pm | *Ballroom ABC*

MODERATOR: **John O. Norquist**, President and CEO, Congress for the New Urbanism

Exhibitors

Allison Ramsey Architects, Inc.
Booth 3

Allison Ramsey Architects provides services from single-family homes to town homes to town centers, design concepts to construction; from the scale of the building to the scale of the neighborhood. We provide development consultation, implementation, and planning services.
www.allisonramseyarchitect.com

Architectural Charrette Team
Booth 13

ACT offers efficient and consistent charrette management from schematic design to complete construction documents. ACT brings together top-tier architects to deliver architecturally accurate traditional building plans for new urbanist neighborhoods.
www.charretteteam.com

ArX Solutions, Inc.
Booths 20 & 29

ArX Solutions is an accomplished, 3D visualization studio, offering computer graphic services for charrettes. ArX has considerable experience assisting the nation's leading town planners and urban designers, by providing on-site collaborative solutions.
www.arxsolutions.com

Catellus
Booths 17 & 32

Catellus, a company of ProLogis (NYSE: PLD), is a master developer for some of the nation's most innovative and sustainable mixed-use and retail developments. For twenty years, Catellus has transformed urban infills, brownfields, and former military bases and airports into signature retail, commercial, and residential developments that include open space, parks, and public facilities.
www.catellus.com

CDC NCEH/ATSDR
Booth 18

CDC's National Center for Environmental Health and the Agency for Toxic Substances and Disease Registry scientifically considers all factors that affect the health of people, including healthy community design.
www.cdc.gov

CNU Florida / CUES / TCRPC
Booths 27 & 28

The Florida exhibit, sponsored by the Florida CNU Chapter, the Treasure Coast Regional Planning Council, and FAU's Florida Design Center, demonstrates the broad practice and experience of Florida's new urban professionals.
www.cnuflorida.org

Devlin Architecture
Booth 22

Devlin Architecture practices architecture, interior design, and master planning, while working in partnership with clients to serve their goals and maintain a high quality design through keen attention to detail.
www.devlinarchitecture.com

Endeavor Real Estate Group
Booths 36 & 37

Austin-based Endeavor Real Estate Group is developing The Domain, a vibrant, sustainable community offering an abundance of choices for living, shopping, working, and playing that will define the urban Austin lifestyle for the next 100 years.
www.endeavor-re.com

Historical Concepts
Booth 16

Historical Concepts is a multi-discipline firm specializing in traditional architecture, land planning, and place making. The firm also offers pre-designed home plans specifically for TNDs and new urban developments.
www.historicalconcepts.com

New Town in a Box, LLC
Booth 21

New Town in a Box is a comprehensive package of materials used to create The New Town at St. Charles, one of the most successful new urbanism developments in the country.
www.newtowninabox.com

New Urban Image
Booth 1

New Urban gift items for family, friends, and clients. T-Shirts for men, women, and children, Transect and Light Imprint mugs, T-Zone Coasters and Journals that feature the CNU Charter! A portion of profits to benefit CATS (Center for Advanced Transect Studies).

Philips Lighting North America
Booth 19

Dedicated to energy efficiency and sustainability leading Philips divisions, Philips Lighting Company and Advance offer a full line of environmentally friendly and "Green Flagship" lamps, ballasts, and lighting solutions for the market's broad range of outdoor applications.
www.philips.com

TBG Partners
Booths 6 & 11

Founded in Austin in 1987, TBG is an innovative landscape architecture and planning firm hosting a concierge lounge where convention goers can find schedules and maps, and, most importantly, relax.
www.tbg-inc.com

The Prince's Foundation For the Built Environment
Booth 15

The Prince's Foundation is an educational charity which exists to improve the quality of people's lives by teaching and practicing timeless and ecological ways of planning, designing, and building.
www.princes-foundation.org

The Smart Growth Network
Booth 14

The Smart Growth Network was formed in response to increasing community concerns about the need for new ways to grow that boost the economy, protect the environment, and enhance community vitality.
www.smartgrowth.gov

Town Planning and Urban Design Collective, LLC
Booth 2

Town Planning & Urban Design Collaborative and William S. Wright, co-author of the *SmartCode and Manual*, provide planning, coding, implementation, innovative development solutions and legal services for developers and municipalities across the country.
www.tpudc.com

University of Miami, School of Architecture

Learn New Urbanism Online! The Principles and Practice of New Urbanism is a self-paced online course offered by University of Miami's School of Architecture, a world leader in New Urbanism.
www.arc.miami.edu/nuonline

Valle & Valle, Inc.
Booth 4

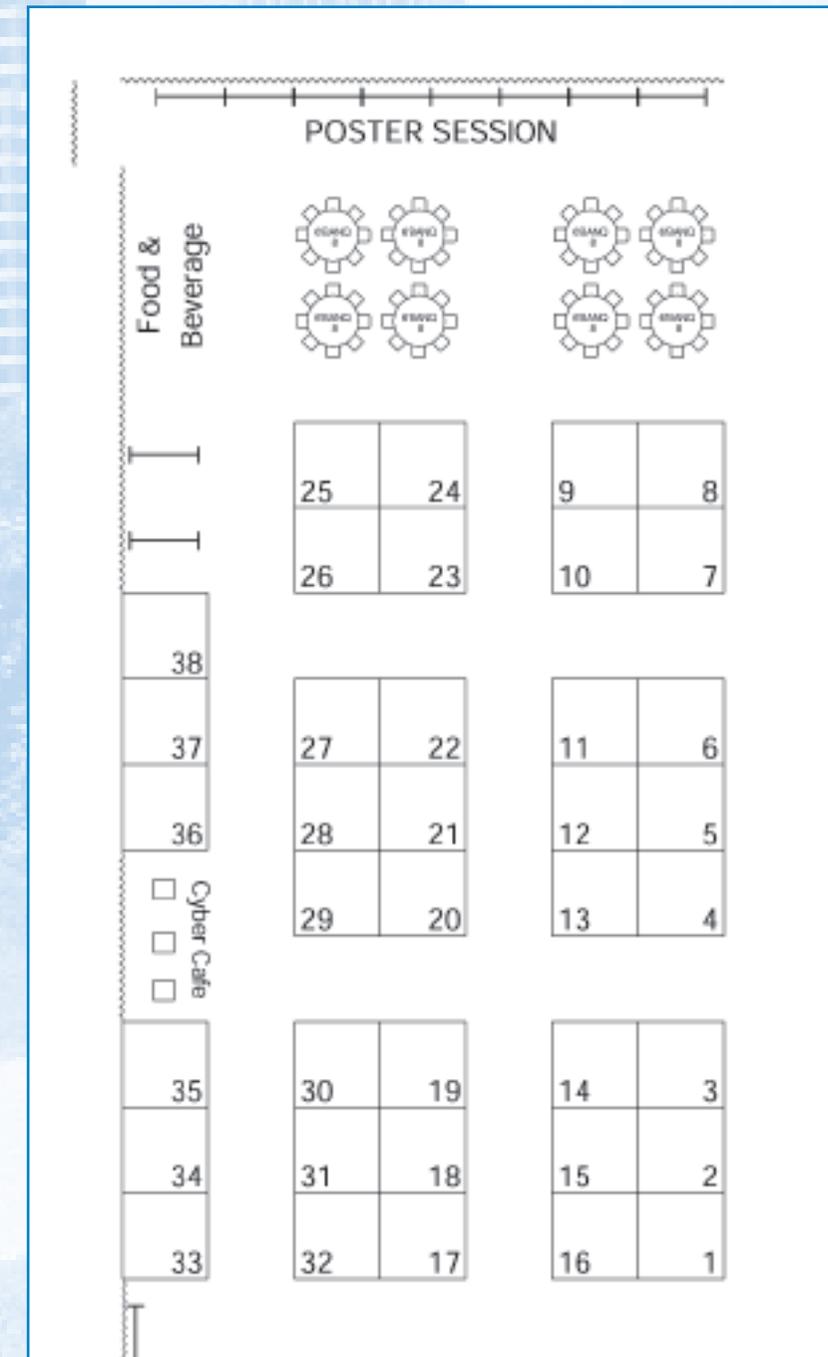

Vinyl Siding Institute
Booths 30 & 31

The Vinyl Siding Institute (VSI) is the trade association for manufacturers of vinyl and other polymeric siding and suppliers to the industry. VSI will exhibit information pertaining to VSI certification programs and product highlights.
www.vinylsiding.org

Weston Solutions - GreenGrid
Booth 12

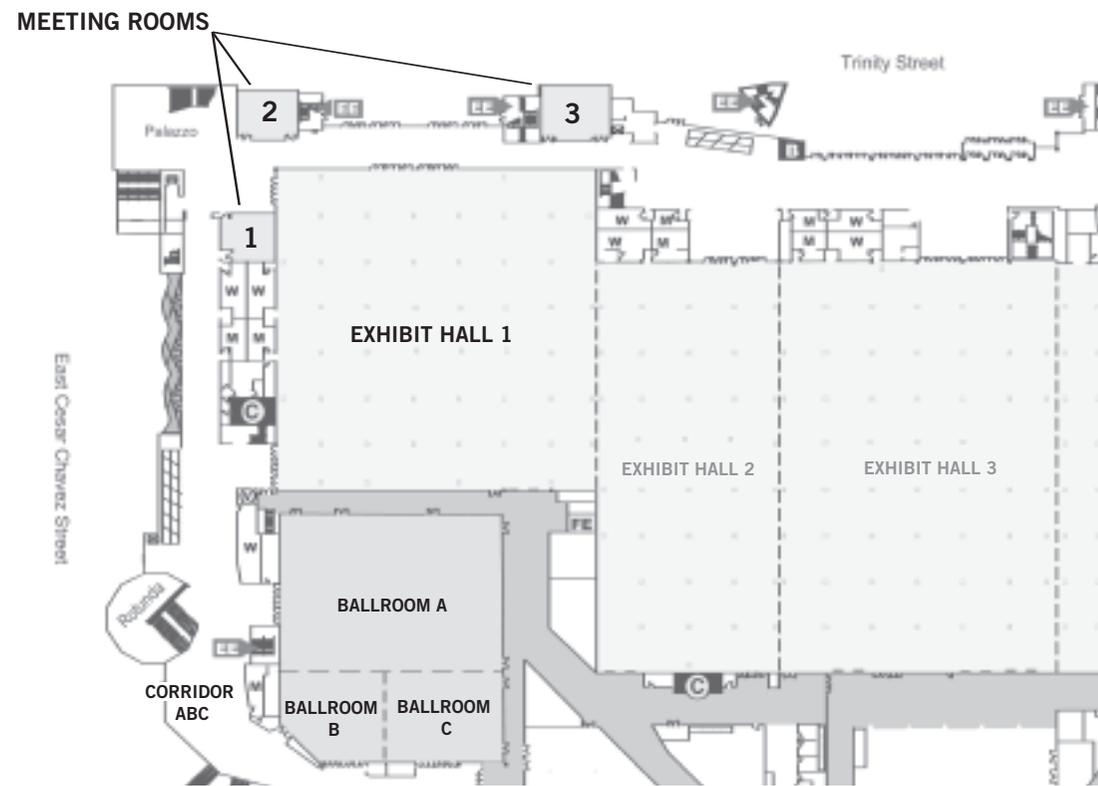

The GreenGrid® modular green roof system is a cost competitive alternative to built-in-place green roofs. GreenGrid offers pre-planted modules made of recycled plastics that can be easily installed and maintained.
